- Check portfolio website for
Tableau Dashboard

Profile

Experienced with expertise in Tableau, Python, SQL, data visualization, Graphics Design and web design, passionate about delivering data-driven solutions that enable businesses to make informed decisions.

Experience

Projects

1.Path Following Robot & obstacle detection

Developed code for path following robot with obstacle detection, collaborated with team members, and demonstrated strong analytical and problem-solving skills, resulting in successful demonstration of robot's capabilities.

2.AI Based Face recognition

Developed and implemented AI-based face recognition system, coded algorithms, collaborated with team, conducted testing, documented, deployed, provided support, and researched new tech to improve performance within budget and on time.

3.Tableau Dashboard

I have created dynamic dashboards with a variety of data sources as a Tableau developer, giving business stakeholders insightful data. I optimize the performance for massive data sets using my knowledge of data wrangling, ETL procedures, SQL queries, and sophisticated analytics approaches. I'm passionate about creating decisions based on data, and I can add important technical Tableau expertise to any organisation.

4.Portfolio website.

Utilized HTML, CSS, JavaScript, and React to design, develop, test, and deploy a responsive portfolio website while enhancing performance, putting security controls in place, and working with team members to meet project objectives.

5.Resume builder website

Build your perfect resume effortlessly with our user-friendly Resume Builder website at <https://ashutoshjha-007.github.io/resume-builder/>. Create, edit, and download professional resumes with ease. Start shaping your future today!
